Modul-System

Como cliente de Modul-System, puede estar seguro de que ha tomado la decisión correcta. Contamos con más de 40 años de experiencia en el sector y hemos utilizado nuestro programa de seguridad durante años. Actualmente utilizamos algunos de los centros de seguridad más renombrados para realizar las pruebas de choque, como el Centro de Seguridad de Volvo Cars. Pero la experiencia en sí misma no es suficiente. Nuestra capacidad de ir siempre un paso por delante y tomarnos el tiempo para entender las necesidades de cada cliente son igual de importantes. En cada uno de los proyectos que desarrollamos, organizamos reuniones con clientes y usuarios finales, lo que nos permite crear productos nuevos e innovadores.

Máxima calidad hasta el mínimo detalle

Nuestros productos están homologados según la norma europea TÜV. Gracias a la certificación ISO 9001, podemos garantizar la calidad en cada fase, desde el desarrollo y la fabricación, hasta la venta, la atención al cliente y la entrega. Así, podemos ofrecer una garantía de 36 meses en todos los productos de fabricación propia. Además, también podemos hacer las entregas más rápidas y fiables del sector.

Service Centers de Modul-System

A lo largo de los años, hemos creado una amplia red de Service Centers en toda Europa. Cada Service Center es un distribuidor autorizado con la experiencia necesaria para satisfacer sus necesidades específicas, ya que el personal cuenta con un total conocimiento de nuestros productos y de cómo instalarlos en su vehículo. También pueden ofrecerle revestimientos de piso y paredes, equipos electrónicos como, por ejemplo, iluminación, sujeciones para mercancías y bacas.
